October 30, 2019

To whom it may concern,

This letter is in response to your school's request for a Sole Source letter from our company.

Turing Tumble is a kit for building mechanical computers powered by marbles. Turing Tumble allows kids to see and feel how computers work in a hands-on and engaging way. It is accompanied by a puzzle book with 60 puzzles that increase in difficulty.

Turing Tumble is manufactured and distributed exclusively by Turing Tumble LLC. We warrant that no other items or products are available for purchase that would serve the same purpose or function and there is only one price for the above-named product because of exclusive distribution and marketing rights. Turing Tumble LLC is the only seller authorized to give a 10% discount to educators.

We appreciate your school being a participant in the use of our technology, and we will provide as much support as we can to further the education of students through the focus of learning how computers work.

If you desire additional information, please contact me at 651-231-0617, or by e-mail, alyssa.boswell@turingtumble.com.

Sincerely,

A handwritten signature in black ink that reads "Alyssa J. Boswell".

Alyssa J Boswell

Co-Founder, Turing Tumble LLC
